Missile Age Budget To Call for \$73,800,000,000

FOURTH ATLAS MISSILE IS FIRED TODAY

By VERN HAUGLAND

Cape Canaveral, Fla. (AP)—The U. S. Air Force successfully launched its fourth Atlas intercontinental ballistic missile today.

The giant missile rose from its launching pad, in a puff of white smoke and a tremendous flash of flame, at 10:48 a. m.

Within 15 minutes the Pentagon announced that the launching had been a success—a fact plainly evident to the handful of reporters who watched from beaches some miles away from the fenced-off test center.

The Department said further that "the test, which was not full range, was successful."

This meant that the Atlas, designed to fly more than 5,000 miles, was assigned a shorter range for this test flight and operated accurately over that distance.

The announcement from Washington said the launch was "successfully carried out at 10:48 a. m."

"This test of the Atlas, under development by the Air Force and Convair, was one of a series of intermediate range and intercontinental range ballistic missile flights conducted at the Canaveral station," the announcement said.

It rose slowly through hazy clouds. Its bright trail of fire was visible for almost three minutes.

The thunder of its mighty engines—a primary motor and two boosters—could be heard even after the missile itself vanished in high clouds.

Shortly before disappearing into the overcast, the missile arched over gradually to the southeast, over the test range which extends 5,000 miles out across the Atlantic.

The Atlas is the American answer to the Soviet claim of intercontinental ballistic capability.

This was the second apparently successful firing of "the Beast," as the Atlas is known to its builders.

Staff Members of Peiping Newspaper Anti-Communist

Hong Kong (AP)—Red China has admitted that no less than 13 staff members of its official organ, the Peiping Peoples Daily, have turned out to be anti-Communist.

One editor, the Peiping paper said, described communism as "a society full of darkness and blood-stains."

The Jan. 5 issue of the paper, just received in Hong Kong, said the most important offender within the editorial fold was Chiang Yuan-Chuang, director of the Eastern Division of the editorial department. The rest were editors and reporters.

"These rightists were actively engaged in antiparty, anti-socialist crimes," the paper said. "They slandered the Communist party leadership of the paper and described it as 'imperialism.' They also opposed publication of party communiques, directives and documents on the ground this would turn the paper into a billboard."

The Sunday Examiner, Hong Kong Catholic weekly, reported meanwhile that Bishop Dominic Tang of Canton underwent a public denunciation before the Chinese Catholic Patriotic Society in December.

Bulganin's Proposal for Talks Blunts Impact of Ike Message

London (AP)—Soviet Premier Bulganin's proposal for summit talks today blunted the impact on Western European opinion of President Eisenhower's call for peace through strength.

Instead of having the newspapers all to himself, Eisenhower had to share space with Bulganin and in some cases took second place to the Soviet Premier.

But there were no immediate signs that Bulganin had caused new divisions of opinion in Western ranks.

Rather, Western Europe's newspapers gave their readers the impression that Eisenhower and Bulganin were engaging in a dialogue of peace—a conversation that did not fit together very well but was

Diesel Switch Engine Stolen From Yards

Ogden, Utah (AP)—Somebody stole a diesel switch engine last night from the Union Pacific Railroad yards. It was found abandoned half an hour later—near the mouth of Weber Canyon, east of here.

When yard crews saw the engine rolling onto the east-bound mainline tracks, they called police and ordered a westbound freight train halted at Morgan.

Mother Kills Three Kiddies Then Suicides

Reno, Nev. (AP)—"We are all bad seed," read a note left by a wealthy insurance executive's estranged wife.

Her bullet-torn body and those of the couple's three children were found side by side yesterday on a bedroom floor of their \$50,000 home.

Victims of what police described as child killing and suicide were Mrs. D. Yvonne Cavanaugh, 34, recently released from a mental hospital, and her children, Anthony, 9, Carol, 8, and Kevin, 4.

Robert Cavanaugh, who had been separated from his wife more than six months, was in Chicago when the shootings occurred—apparently after the two older children returned from school Wednesday. Cavanaugh is secretary of the Illinois Commercial Men's Assn. of Chicago.

Asst. Dist. Atty. William Raggio told of blood-spattered and bullet-pocked upstairs walls, indicating that Mrs. Cavanaugh may have chased and shot the children in various rooms before bringing them downstairs to lay them in a row on a blanket in her lavish bedroom.

The children's bodies were riddled by bullets from a .25-caliber automatic found beside their mother.

Police said more than 20 shots had been fired.

A maid, Dora Lee Halley, found the bodies when she came to work yesterday.

A note the maid missed was

Member of Inn Burglary Gang Sentenced to Workhouse Says "He Has Learned His Lesson"

"I'm sorry. I've learned my lesson. I'll never get in trouble again." Those three short sentences, plus an attitude of complete dejection and loneliness in court this morning, resulted in a minimum sentence of six months in Allegheny County Workhouse being placed against Arthur Gilliland, 18, of Oil City.

Judge Alexander C. Flick, Jr., in sentencing the fifth member of the Pine Woods Inn burglary gang, stated that Gilliland's statements were the first evidence he had had that any members of the quintet had a conscience.

Reiterating his promise that the future is up to the prisoner, Judge Flick admonished the youth to "Keep your conscience with you" as he walked from the courtroom. The judge also told the boy that "the wonderful thing about life is that you can always reform. Next year you can always be better than the year before."

The boy presented a pathetic picture as he sat in court with head bowed, shoulders hunched and hands clasped. He wore thin cloth pants and a too-small jacket which was last seen on the back of fellow prisoner Calvin Marsh, 18, of Titusville, who still awaits sentencing in Warren County Jail for an attempted escape Jan. 1. (The Gilliland boy also sported a prison haircut, which, when coupled with an odd hair style presented a remarkable tonsorial picture. The hair on the side of his head was slicked back in the best "DA" tradition while on top the effect was a two-inch high brush cut.)

The defendant, product of a broken home, had previously spent a period at St. George Junior Republic in Grove City, then been re-sentenced to Pennsylvania Industrial School at Camp Hill after he ran away from the Republic. He had been released Aug. 2, 1957.

On the witness stand, Chief Deputy Don Allen, Jr., told how Gilliland had fallen in with his bad company the day before they began their brief crime career and had supplied his brother's gun for the holdup in Sherman, N. Y.

During his sentencing before Judge Flick, the young man stated he didn't know "how bad" his company was when he first started traveling with them. The judge

Macmillan Position Strengthened by Clash in Cabinet

London (AP)—Prime Minister Macmillan seems to have turned a serious clash inside his Cabinet to the political advantage of himself and his Conservative party.

Instead of finding his position with the general public weakened, Macmillan actually may come out stronger from the dispute over the new government budget which produced the surprise resignation of Chancellor of the Exchequer Peter Thorneycroft.

For now Macmillan, as he tours the Commonwealth, stands at home as the defender of the welfare services—as the moderate politician who refused to cut back government expenditures on such things as free milk for children and aid to expectant mothers.

The announced reason for Thorneycroft's resignation Monday was that he insisted the relatively small sum of 50 million pounds (140 million dollars) should be cut from the estimate of government expenditures for the fiscal year that begins April 1.

Hospital Pavilion Contract Given To Beyer Construction

Beyer Construction Company of Warren yesterday was awarded a contract for additions and alterations to the Jefferson Hospital Pavilion at Warren General Hospital. Beyer's bid of \$170,875 was accepted at a special meeting of the Hospital Board of Directors, according to a news release prepared by the publicity committee.

The board also awarded contracts to the Automatic Sprinkler Company of America and the Swart Elevator Company of Erie. Total cost of the rebuilding including the sprinkler system, elevator furnishings and decorating will amount to about \$214,000.

Other bidders for the base contract were Carl E. Swanson, Bradford; Ludwig Peterson, Warren; H. Platt Co., Erie.

Beyer Construction Company will begin work on the Pavilion within the next few weeks. Contract calls for completion within 180 days and hospital officials believe the new facility will be ready for occupancy in early fall.

The remodeled building will provide 24 beds and will serve as a chronic illness and convalescent center. The architects are Beck and Tinkham.

Fine Character Reference May Benefit Defendant in Court

An excellent character reference for Larry Jewell, 22, of Corry, will probably influence the court this afternoon when Judge Alexander C. Flick, Jr. decides what punishment to administer to the defendant who has pleaded guilty to a burglary charge.

According to testimony given on the stand this morning by State Trooper John Hornick of Corry, defendant Jewell on the night of July 6 went into Veteran's Auto Sales at Columbus and stole the keys and title to a 1955 Plymouth which was already in his possession.

Later, testified the officer, Jewell's 1950 car was repossessed and found to have the steering column and wheel of the machine for which the keys and title had been stolen. The missing vehicle was later found on Picaadilly Hill near Columbus in a "stripped" condition. Pictures showing the framework and motor of a car in a

Soviet Union Fires Another Peace Barrage

By HAROLD K. MILKS

Moscow, (AP)—The Soviet Union has fired off another peace barrage. It appeared here today to be a deliberate attempt to maintain the Kremlin's diplomatic initiative.

Premier Bulganin's latest proposal for a summit meeting reached Washington offices shortly after President Eisenhower delivered his State of the Union message to Congress.

In Paris, Bulganin's lengthy letter was delivered the day before NATO Council members were scheduled to meet to consider a reply to earlier Kremlin suggestions for a top-level conference.

The latest Soviet letters were largely repetitions of earlier proposals with the additional suggestion for a Geneva meeting "in the course of the next two or three months . . ." The tone of the message was marked by a lack of inventiveness or aggressive words and phrases.

A brief note following the letter to Eisenhower published in Pravda said Bulganin's messages were sent to the 15 NATO members as well as to the other countries of the 82-member United Nations. Moscow radio said Switzerland and "several other states" not in the U. N. also got letters.

The original Moscow radio announcement of the letters had said they were sent to 19 governments, including NATO members.

Washington, (AP)—Russia's latest and most insistent demand for an East-West summit conference on crucial cold war issues got intensive study—and a cold reaction—today in official Washington.

In a message to President Eisenhower, Bulganin said he proposes to call an East-West summit meeting, perhaps in Geneva, in the next two or three months. Pravda said Bulganin messages went to the 15 NATO nations and the other countries of the 82-member United Nations. Moscow radio said Switzerland and other nations not in the U. N. also received messages.

There was no evidence the United States intends to change its basic policy against having a new top-level meeting under present conditions.

Segregationist Sharing Cellblock With Negroes

Knoxville, Tenn. (AP)—Segregationist John Kasper is working in the warehouse of the Federal Correctional Institution at Tallahassee, Fla., and sharing his 50-bunk cellblock with several Negroes.

This was the report today of Deputy U. S. Marshal Billy Robinson, who said he saw Kasper Wednesday when he took some other Knoxville prisoners to the prison.

Kasper is serving a sentence for criminal contempt of court in connection with racial disorders at Clinton, Tenn., in 1956.

COMMENT BY CLARK

Washington (AP)—Sen. Clark (D-Pa) had this comment on President Eisenhower's State of the Union message to Congress: "The speech was excellent, but the President is still wearing rose tinted glasses with respect to our present national security position."

Editor of Daily Worker To Quit Commie Party

New York (AP)—Editor John Gates of the Daily Worker, Communist party organ which is suspending publication next Monday, has decided to quit the Communist party, the New York Post reported today.

The Post said Gates would hold a news conference to announce his decision to resign from the party and explain the reasons.

Gates' group has wanted American Communists to take an "Independent" position while the others called for reaffirmation of loyalty to Moscow.

The differences were brought to a head when the Foster faction, dominant in American party affairs, moved to shut down the party's daily newspaper—a publication plagued for years by financial troubles.

Entire Cabinet In Venezuela Quits in Crisis

Caracas, Venezuela (AP)—The entire Cabinet resigned last night to give President Marcos Perez Jimenez a free hand to deal with the political crisis that followed the New Year's Day military uprising. There were rumors a military junta had been formed.

Creation of a junta probably would mean military officers would supersede Perez Jimenez as the executive power.

Another rumor said he would continue in power with an all-military Cabinet.

The only official news available was a bare mention that the Cabinet had resigned. The news was carried in announcements in two morning newspapers. The radio stations made no mention of the developments.

Except for soldiers at some strategic points and the presence of some armored cars and a tank in front of the presidential palace there was no unusual activity in the city.

Despite the lack of official news it was apparent that a crisis was at hand. The radio stations broadcast an announcement in mid-morning that the president had canceled a ceremony scheduled for 11 a. m. He was to have inaugurated a new military school at that hour.

The resignation followed a Cabinet meeting for almost an hour late yesterday at the President's palace. The move, which had been expected, was interpreted as an

Eight Called for Sentencing Today in Turnpike Fraud

Harrisburg, (AP)—Eight men were called for sentencing in Dauphin County Court today on conviction of conspiring to defraud the Pennsylvania Turnpike Commission of \$500,000 in the sale of road-bed filler.

Four others who pleaded guilty to charges of conspiracy and testified for the commonwealth at the trial last November also were called to appear before Judge Homer L. Kreider for sentencing.

A 13th defendant in the alleged conspiracy was granted a trial postponement due to ill health.

All of the defendants were indicted on charges of conspiring to defraud the commission for road-bed filler which the prosecution claimed never was delivered for use under a section of the toll road's northeastern extension.

INCREASE IN FEDERAL DEBT CEILING COVERING FISCAL YEAR FORECAST IN CAPITAL

Washington (AP)—President Eisenhower will send to Congress Monday a missile age budget calling for \$72,800,000,000 or more in spending and an increase in the federal debt ceiling; government informants said today.

The new budget, covering the 1959 fiscal year starting next July 1, will be precariously balanced, as Eisenhower hinted in his State of the Union message yesterday.

But the President will notify Congress that the supposedly balanced budget for the present government year is now expected to show a small deficit instead of a planned 1½-billion-dollar surplus, officials disclosed.

Eisenhower reportedly will attribute the return to deficit financing to two factors: 1. A \$1,300,000,000 increase in scheduled defense department outlays; and 2. A drop of about a billion dollars in estimated revenues, caused by declining business profits and personal income.

The deficit will be well under half a billion dollars, informants said, but the return to red ink is a major disappointment to the administration. Only three months ago the administration announced it would have its third balanced budget in a row.

The same causes—faster military spending, slower tax collections—will oblige Eisenhower to seek a temporary, "slight" increase in the 275-billion-dollar ceiling on the public debt, administration sources said.

The expected budget request of close to 74 billion dollars will be about two billions higher than Eisenhower's original estimate for this fiscal year and roughly one billion higher than this year's actual outlays.

This will represent the highest federal spending since World War II. Former President Harry S. Truman had a bigger budget in 1953, costliest year of the Korean War, but his \$74,300,000,000 budget included highway spending and Eisenhower's does not. A separate highway trust fund was established under a 1956 law.

The President told Congress there will be substantial steps in outlays for missiles, nuclear ships, atomic energy, research and development, and science and education.

In his State of the Union message, he confirmed reports that a special contingency fund—understood to total about 500 million dollars—would be requested, to be spent at his discretion to exploit possible new technological discoveries. There also will be requests for pay increases to enable the government to get and hold competent manpower, he said.

Erie Man Facing Court-Martial in Wiesbaden

Wiesbaden, Germany (AP)—An Erie, Pa., man is among six American airmen who face court-martial this month for the pre-Christmas beating of a German Catholic priest who intervened in a brawl.

An Air Force spokesman said no date has been set for the trial of the men who are charged with breach of the peace. All are stationed at the big Air Force base near Ramstein. The Erie man is S. Sgt. Roy C. Burrows of 1558 West 40th St.

The brawl occurred Dec. 22 in Ramstein. Local newspaper reports said the Rev. Aldis Ruffing, 29, was knocked down and kicked in front of a bar facing his church after he intervened in a fight between a group of airmen and some Germans.

Cold-Blooded Killer Dies in Chair With Prayer on His Lips

Ossining, N. Y. (AP)—Elmer (Trigger) Burke, cold-blooded killer convicted of murdering his best friend in a barroom brawl, died last night with a prayer on his lips in Sing Sing Prison's electric chair.

The cocky, 39-year-old Burke, who might have saved his life by talking about some unsolved gangland slayings and robberies, entered the death chamber accompanied by the prison Catholic chaplain and praying with him.

Burke turned to the witnesses and smiled. He waved a hand at a witness, who waved back but later said he never knew the condemned man. Burke said nothing aside from words softly spoken in prayer as he was strapped into the chair.

The small and wiry Burke, who was often accused of murdering for hire, ran afoul of the law for keeps after he shot down his pal Edward (Poochie) Walsh in a

Ike's Message Meeting With Usual Reaction

Washington (AP)—Democrats called on President Eisenhower today to back up with specific blueprints for action the eight-point program he laid before Congress yesterday.

Senate Democratic Leader Lyndon B. Johnson of Texas set the show-me tone of reaction to the proposals Eisenhower outlined in his State of the Union Message. Eisenhower said they are needed to meet the growing space era threat of what he repeatedly called "Communist imperialism."

"The President has in general terms set forth some worthy objectives," Johnson said in an interview. "He has called for strengthening of our allies, greater understanding and commerce between nations and attempts to bring peace to the world. These have long been Democratic objectives."

"Now we are waiting for his blueprints for meeting those objectives. As soon as he lays them down, our committees will promptly consider his recommendations."

Cold Snap Tightens Grip on East Coast And Florida Section

By The Associated Press
A cold snap tightened its grip on the Atlantic coastal states today. Freezing weather took another swipe at Florida's crops in one of the state's worst winter's since the 1890s.

From Maine through Florida, nighttime temperatures were at or below the levels of 24 hours earlier.

Early morning readings ranged from below zero in parts of New England to the teens in mid-Atlantic states and the upper 20s in northern Florida.

Growers found frozen citrus

fruit at Deland, Lake Alfred and Winter Haven.

A warming trend from the mid-continent continued eastward however, and reached the western portions of the Atlantic coastal states. Temperatures were up nearly 10 degrees from the preceding day from western New York into western Georgia.

Jury Being Chosen In Warner Murder Trial at Mayville

Mayville—Impassive and self-possessed, Donald F. Warner, 22, of 179 South Main St., Jamestown, sat in the county court Thursday watching defense and prosecution attorneys examine prospective jurors for his second degree murder trial.

Warner is accused of bludgeoning to death his 18-year-old pregnant wife, Mrs. Winifred Doud Warner, in her mother's Frewsburg home Sept. 12.

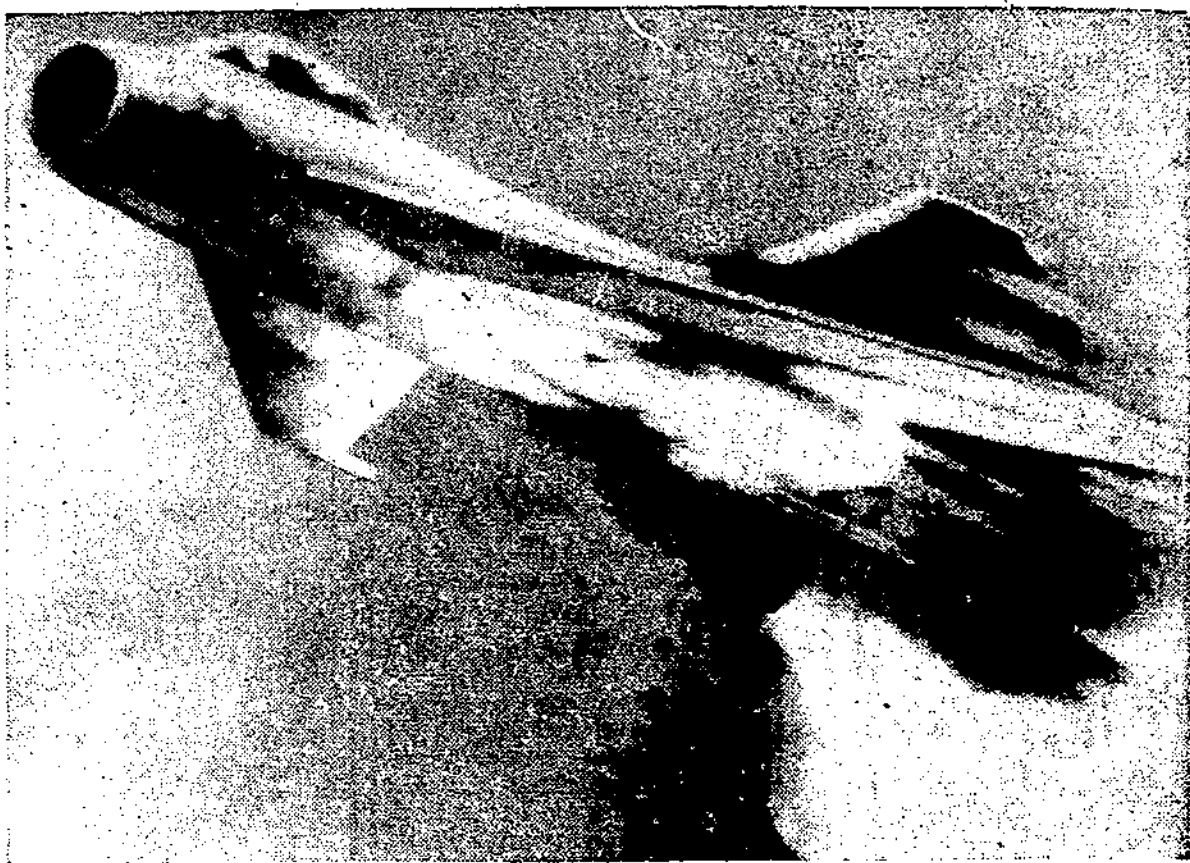

Investigators charged that Warner, in a fit of temper, struck his bride on the forehead with a piece of timber, then dragged her, still alive, into the bathroom of her mother's home. There he deposited the body in the tub, police said, and ran a few inches of water into it. Warner was characterized by police and associates as having a "terrible temper."

Seven jurors were picked during the day—two of them before the noon recess and five in the afternoon. Seven more—including two alternates—must be selected before testimony can begin. It is not expected the trial will get fully under way until Monday or Tuesday.

A panel of 80 jurors has been summoned—20 more than the usual number—because of the gravity of the crime and the possibility both defense and prosecution will make liberal use of peremptory challenges.

Warner faces a sentence of 20 years to life if convicted of the killing. He was arrested near Tionesta, Pa., by Pennsylvania State Police on Sept. 13—the day after his wife's body was found in the bathtub at her mother's home at 55 Falconer St. in Frewsburg. The alarm for Warner was sounded a few hours after Mrs. Warner's brother, William Doud, 14, found her. Warner phoned Pennsylvania police after he heard of the alarm and offered to surrender. Troopers picked him up near the Allegheny River community of Tionesta and returned him to New York.

Difficulty in obtaining counsel has delayed Warner's appearance before the bench. He was indicted by the Grand Jury on Oct. 7.

NEW RED TAKE-OFF TECHNIQUE — This official Russian photo, which appeared in the weekly newspaper, "Soviet Aviation," depicts a new Russian airplane take-off technique. A rocket attached to the tail catapults the plane directly into the air, dropping off when a certain altitude is reached. The Reds claim the new method eliminates need for airfields since the plane can take off from any terrain.

Eagles Helping to Promote the "Jobs After Forty" Campaign

The following release received from M. F. Masterson, secretary of Warren Aerie No. 313, Fraternal Order of Eagles, describes the plan launched by the organization to promote the "Jobs After 40" campaign:

Petitions urging Congress to outlaw discrimination in employment based on age are being circulated by F. O. E. No. 313 Aerie of the Fraternal Order of Eagles as part of a nation-wide Eagles "Jobs After 40" campaign. It was announced today by Harold Lindsey, Aerie President.

The fraternity hopes to obtain half a million signatures throughout the United States to present to Congress at its next session early in 1958. Pending in the U. S. Senate is the "National Act Against Age Discrimination in Employment," which would ban age as an arbitrary job barrier in employment policies. The Eagles have gone on record in support of this legislation, or any similar type legislation which would accomplish the objective of assuring job opportunities regardless of age.

"We are seeking the aid of all citizens, and organizations to obtain the maximum number of signatures for our petitions," said Mr. Lindsey.

"The Eagles join with many of our leaders in government, industry and labor, in acting for an end

to the wasteful practice of putting a great army of experienced and mature workers on the shelf because of a prejudice against older workers which has no basis in fact. Department of Labor surveys, and studies by the National Association of Manufacturers, have established that older workers rank high in dependability, skills, and productivity, and establish excellent records. The problem of an individual to find employment after the age of forty, when he has reached the greatest peak of his skill, knowledge, and ability to perform his work, is one that should be eliminated, because it is based solely on prejudice which is harmful to industry as well as to the older worker and his dependents."

In line with their campaign, the Eagles are urging that the government contract committee, headed by Vice President Richard M. Nixon, pave the way for private industry, by requiring that firms and plants receiving government defense orders hire workers regardless of age, provided they meet qualifications as a condition for receiving defense contracts.

Each petition can accommodate 30 signatures. The local Aerie has set no particular numerical goal, but will obtain as many names as possible. The filled out petitions will be returned to the Grand Aerie headquarters at Milwaukee, Wis., and with others will be presented to Congress.

Bar Association Holds First Meeting of Year

The Warren-Forest County Bar Association held its first meeting of the new year last Wednesday night at the Penn Laurel Motel preceded by the usual dinner, with a record number in attendance.

Attorneys J. H. Goldstein and R. Pierson Eaton were appointed official delegates to the State Bar convention which meets at Harrisburg the end of this month.

Several matters of importance to the association were considered in a lengthy session and President John Stewart appointed committees to make recommendations at the next meeting.

The meeting was the largest attended in some time with all members of Forest County being present.

Investigation Discloses A. P. Erred in Reporting Man Rocket

By The Associated Press
Investigation now clearly indicates that The Associated Press erred Monday in using the phrase "reliable sources" in its report that the Soviet Union had launched a manned rocket into space.

The investigation shows that while the nonofficial sources quoted had proved reliable in the past, they were reporting rumors in this case. There has been no formal denial of the rumors from the Soviet government.

The facts thus far developed are these: The Moscow staff says it heard the manned rocket reports from East European correspondents and at least one Western embassy but did not file the story for another 48 hours, while it continued checking.

Advised that other agencies were carrying the story abroad, Moscow then gave the story by telephone to London. It was in this process that mis understanding arose. Two London staffers who took the call say they understood the Moscow staffer to say the story could be attributed to reliable sources.

Immediately after this, stringent Moscow censorship was imposed on the rocketman story.

Late Wednesday the Moscow bureau said that while the adjective "reliable" could apply to the sources from which the reports came, the rumor they were relaying was completely unconfirmed.

Until late Wednesday, Soviet censorship curtailed off further news and inquiry and while the Soviet Union made no formal denial of the rocketman story, officials of the Committee for Cultural Relations with Foreign Countries and a spokesman for the Soviet Academy of Sciences said they had no information about it. A Soviet Foreign Ministry spokesman in Moscow said he could say nothing about the accounts.

The deputy director of the Soviet news agency Tass was quoted as saying in a Moscow broadcast heard in London Tuesday that it was "completely incomprehensible" to him how Western news agencies obtained the report.

The ancient civilization of Carthage was founded in 826 B. C.

Strokes

Q. Is there any difference between a stroke and apoplexy?

A. No. The term "stroke" is a popular term for "apoplexy" or "apoplectic stroke."

Q. Are strokes always due to brain hemorrhage or bleeding?

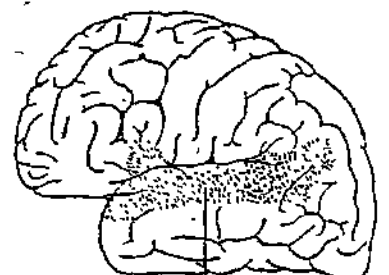

A. No. A stroke results when the blood supply to some part of the brain suddenly stops. This can occur when a brain blood vessel ruptures or when a brain blood channel becomes blocked.

Q. Does a person ever completely recover from a stroke?

A. The damaging effects of a stroke depends on how much and what part of the brain is affected. Doctors say it is possible to have a little stroke with hardly more ill effects than a temporary sensation of not feeling up to par. Real trouble shows up when the more vital parts of the brain are involved. For example, if the speech area is damaged the victim has trouble talking. Injury to other areas of the brain may affect memory or cause some paralysis of the arm and leg.

Q. What area of the brain is affected when a person has trouble talking following a stroke?

A. The brain area necessary for

SPEECH AREA

speech is shown as a shaded area in the above drawing. Q. Is some stroke likely to be followed by others?

A. Strokes may occur quite often over a period of years or the second attack may not show up for a decade or more. Many people who have repeated little strokes are not aware that each is a step down the ladder but the family may notice some change in personality. As the brain becomes more and more damaged by one little stroke after another the previously pleasant, well-groomed person may become dull or perhaps bad-tempered, careless of dress, and depressed. Paralysis that follows massive brain injury when a large blood vessel is involved may never occur.

LUCKY HAND
MAKES SEVEN

By OSWALD JACOBY
Written for NEA Service

Bobby Wolf of San Antonio took time out from his successful TV show "What's Your Bid" to play on the winning team at the Republic of Texas championships at Fort Worth.

Today's hand shows Bobby, walking off with all the tricks with a hand that might well have gone down at three no-trump.

With 20 high card points Bobby was just too weak to open two no-trump but decided on that as his rebid after West overcalled. North raised Bobby to game and West opened the eight of spades. Bobby gathered in the trick with his queen and laid down the ace of hearts. West dropped his singleton queen and Bobby saw that he needed two entries to dummy in order to be able to bring home the heart suit.

Therefore he led a low club and finessed dummy's ten. Dummy's nine of hearts was allowed to ride

for the next trick. Then Bobby took the king, got back to dummy with the king of clubs and got rid of his two remaining spades on dummy's hearts.

Meanwhile West had discarded a couple of diamonds. Now Bobby led dummy's jack and East covered with the king. This gave Bobby the rest of the tricks for a grand slam.

This is mighty early in the year, but I have a hunch that this hand will stand up as one of the luckiest of 1958.

The Mature Parent

Child's Dependence Stifles Sense of Moral Indignation

BY MRS. MURIEL LAWRENCE

OUT on the sunporch seven-year-old Kate was rearranging her doll's house. At her little sister's urgent request, she let Buft "hold" its toy piano until she was ready to place it. But when this time came, Buft ran away with it. Rushing to Mommy, she cried "Kate gave me this! Now she wants it back. Tell her it's mine Mommy."

Kate's protests were rejected. "You're always giving Buft things and wanting them back," her mother said. "You need a good lesson. This time she keeps what you gave her."

Kate felt a passionate wish to remove Mommy from her life. Withdrawing to the porch, she considered all methods for removal of enemies. She thought of attempting Mommy's physical destruction. She thought of running away. She thought of enlisting Daddy's aid that evening.

BUT she had to discard them all as impractical. Attempting Mommy's physical destruction could only result in punishment, or an orphanhood as terrifying as that of poor little foreign children in magazine pictures.

Running away could only end in somebody's asking her where she was going. As to Daddy, he'd resist any effort to remove Mommy because he was married to her.

Out on the sunporch Kate resolved her rage at unjust authority in the immemorial manner of the helpless.

She began to justify Mommy. She thought, "Maybe I DID give my piano to Buft. I guess I must have done what Mommy says I did, and she is right and I am wrong."

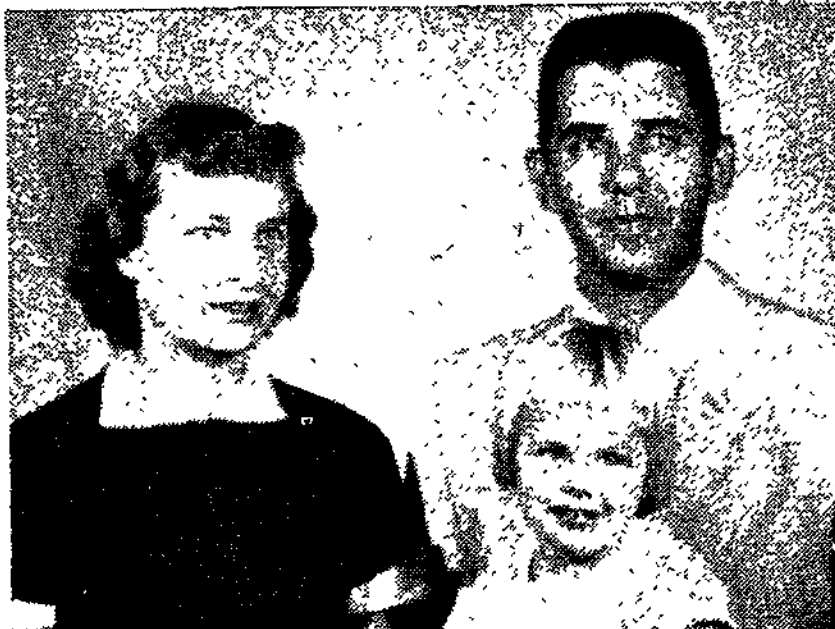

LET us note carefully the appearance of that little, powerful word "right" in Kate's mind. It appeared there, not as the result of a genuine struggle to separate "right" from "wrong," but as a result of her absolute need to be reconciled to Mommy.

This is the child's eternal problem. His acceptance of our views of "right" and "wrong" is compelled, not by his own moral experience, but by his need for survival.

Once we see this, we stop demanding that he share ours. We encourage expression of his views, not because child psychiatrists tell us to, but because we see it's immoral to exploit his dependence. We content ourselves with demanding desirable action without claiming "rightness" for what we want.

Why Don't Men Praise Wives To Others? Husband Asks

"WHY are so many men reluctant to say a kind word or brag just a little about their wives?" asks a reader. And the reader happens to be a man. He goes on to say that most men think their wives are pretty nice. Otherwise, they wouldn't have married them.

"Then why," he wants to know, "are most men ashamed to give their wives a build-up? Maybe they tell their wives privately how smart and nice and clever they are and how lucky the men are to have married them. But I know—because I do brag about my wife to others occasionally—that it makes a woman feel mighty good to have her husband let others know he thinks she is just about all right."

He's got a point, hasn't he? Somehow or other, a lot of men seem to think they appear more of a "regular fellow" if they paint a picture of their wives as extravagant, scatterbrained, bossy and impractical than if they publicized their wives' talents and virtues.

TAKE HIS WORD
WHAT they overlook is that the world tends to accept a husband's expressed ideas about his wife, just as what a woman says about her husband influences what others think about him.

So why should a man who could build his wife up feel he has to belittle her, even if only jokingly, when he is talking about her to others?

This is one place where women are usually more generous than men. For it is a stupid woman, indeed, who goes around lowering her husband, instead of making him appear intelligent, generous and conscientious.

But some of the most successful men seem to feel that they must never, never say anything to give anyone the idea that they are married to intelligent and capable women.

Ike's Message

(From Page One)
Text) both praised Eisenhower's speech, there was mounting evidence of Democratic disappointment that Eisenhower did not make any spectacular proposals for an immediate buildup in American military might.

An analysis of the President's proposals circulated among Democratic senators said that basically the message was "long on proposals and short on performance."

Republicans were practically unanimous in their praise of Eisenhower's personally delivered message. Some Democrats lauded it but many of them were critical.

Eisenhower was interrupted 41 times by applause during the 44 minutes he addressed a joint session of Congress in the House chamber. Republicans provided most of the applause, but Democrats often joined in and occasionally led the outbursts.

The show of enthusiasm, like the world situation, differed sharply from that at the start of 1957. Only five rounds of applause interrupted the entire 1957 address to Congress.

The White House described Eisenhower as "very pleased" with the reception he received.

Member of Gang

(From Page One)
observed that when Gilliland supplied the gun he must have known that something was brewing.

The judge noted that Gilliland had not driven the car over any state lines, thereby implying that his sentence was mostly for the burglary of Pine Woods. The judge averted things to come when he said that one of the cars stolen by the gang had been slightly damaged and that he, the judge, "would take that out of the others." It was pointed out that the maximum sentence for the prisoner would be 25 years. Gilliland's sentence was not less than six months, not more than three years, terms to run concurrently for the one charge of burglary and two larceny counts.

It developed in testimony today that the quintet had also broken into a car and trailer in Forest county before the forays in Warren county.

Two of Gilliland's compatriots in crime, Calvin Marsh, 20, and Donald Emerson, 19, both of Titusville, are in Warren County Jail awaiting a court appearance on a "prison breach" charge. Their escape attempt also meant a parole violation for the one to five year suspended sentence meted for the same charges on which Gilliland was sentenced. Richard Elisager, 22, of RD Youngsville, is in "fair" condition at Warren General Hospital where the ringleader of the bunch wound up with a bullet through his head as a result of the escape attempt. He faces an additional charge of assaulting an officer when he recovers and all are again brought before a judge.

A fifth member of the outfit, Marjorie Roydas, 18, of Titusville, was given a suspended sentence of a year. She acted as lookout during the Pine Woods job.

Judge Flick gave them light sentences so male members of the gang would face first degree armed robbery charges in New York State which could bring ten years, no suspension possible.

Gilliland originally pleaded guilty to the Pine Woods burglary and innocent to the car thefts. Later he changed his plea to innocent on all counts, then guilty for his appearance this morning.

District Attorney Samuel F. Bonavita, as prosecutor for the Commonwealth in the case, was making his first appearance in his new position.

effort to prevent a repetition of the one-day revolt Jan. 1 by the air force and some army units. Caracas has been calm since then.

The short-lived New Year's day revolt was the first major challenge to Perez Jimenez's military-backed dictatorship since army leaders installed him as provisional president Dec. 3, 1952. A constituent assembly named him president for a five-year term four months later, and last Dec. 15, after a plebiscite in which he was the only candidate, he won another five-year term.

Foreign observers considered the revolt the result of dissatisfaction among younger officers.

Fine Character

(From Page One)
A past record of breaking and entering, and two disorderly conduct charges were presented as relevant by District Attorney Samuel F. Bonavita. "His temper is his own worst enemy," stated Trooper Hornick.

In other court matters this morning, Harry Brinkley of Clarion was ordered to pay a fine of \$100 and costs for driving during a period of license suspension. Testimony developed that though Brinkley had had no license since 1950, the state revoked it anyway. Judge Flick, after pointing out that the maximum sentence for such an offense was three years, suggested that Brinkley get the matter straightened out.

Eugene Unger, about 35, of Erie, was ordered to pay \$100 fine, costs and spend the next three days in jail for drunken driving. His offense had occurred December 19. The judge observed that Warren County liked to have persons come into the area to hunt the woods but "we don't want them driving around drunk on the highways."

Unger and his brother, according to testimony of arresting officer Leo Gogolatz, had been involved in a street brawl in front of a local bistro prior to the offense.

THE MARKETS
New York (P)—Steels and motors continued lower as the stock market declined in quiet early trading today. Losses among key stock went from fractions to around a point or more. The tone was lower in a resumption of yesterday's late decline which followed President Eisenhower's State of the Union speech. Wall Streeters felt the market had discounted much of the economic phases of the speech well in advance and they awaited further developments in Washington. Meanwhile, layoffs and cutbacks in the auto industry held down production.

effort to prevent a repetition of the one-day revolt Jan. 1 by the air force and some army units. Caracas has been calm since then.

The short-lived New Year's day revolt was the first major challenge to Perez Jimenez's military-backed dictatorship since army leaders installed him as provisional president Dec. 3, 1952. A constituent assembly named him president for a five-year term four months later, and last Dec. 15, after a plebiscite in which he was the only candidate, he won another five-year term.

Foreign observers considered the revolt the result of dissatisfaction among younger officers.

Fourth Atlas

(From Page One)
On the first two tries, the big missile started to get out of control shortly after launching and had to be destroyed.

The third launching last Dec. 17 was successful over a 600-mile range. The Air Force said the missile landed in a preselected target area.

Today's test was believed scheduled for about the same distance. No attempt to fire the Atlas over its full 5,000-mile range is expected until late this year. It is designed to carry a hydrogen warhead that distance in 25 minutes.

The 70-foot, silvery Atlas was rolled away from its working tower shortly after 8 a. m.

In Washington, the Pentagon reported the test came off "successfully."

She was committed to a private hospital in Portland, Ore., but returned home in November as cured. She refused to see her husband, however.

Special Audit of State Funds Raises Question
Harrisburg (P)—The auditor general's department today awaited word from the administration on why a private firm was hired to audit the Bureau of Employment Security's special administration fund.

The contract for the special audit was awarded Yaverbaum and Co. of Harrisburg.

Army Reserve Program Is Resuming in Warren
After a lapse of several months, the Army Reserve Program is to be resumed in Warren. Word has been received here that the 206th Station Complement is to be assigned to Warren for Warren area Army Reserve Officers.

The first meeting of the new unit is to be held in the old control room in the Warren Municipal Building on Tuesday evening, January 14th at 7:30. All Army Reserve Officers either active or assigned to Control Units such as Indianapolis Gap Military Reservation are invited to attend this meeting.

Up until the early part of the summer, Warren has had a reserve unit of some nature since shortly after World War II. With the cut-back in reserve forces, the local unit was disbanded and local reservists left without any facilities to maintain their active status. Through the efforts of Congressman Leon H. Gavin working with the local group, it has been possible to get the new unit assignment here.

All officers belonging to the new unit will serve in a no-pay status, but will receive retirement credit points by participation in the meetings. The Station Complement makes it possible for all interested officers, regardless of rank or branch of service, to take part in the program.

Judge Asks More Data in Compensation Case
Judge Alexander C. Flick, Jr. this morning asked for more information in a compensation case involving Interlectric Corporation and former general maintenance man Walter Holt of 13 Nesmith Place.

Compensation Board referee had already granted Holt a \$32 weekly stipend (total not to exceed \$20,000) for complete disability which came about, according to Holt, when he came down with pulmonary fibrosis.

Holt, an Interlectric maintenance man, said that from September 27, 1947 to May of 1949 he had been subjected to beryllium inhalation when he broke and disposed of faulty fluorescent tubes which contained beryllium. In May of 1949 the company ceased using the chemical in its tubes.

Holt had originally been paid \$48 a week said Judge Flick's opinion on the matter and the \$32 a week was 66 2/3 percent paid by Pennsylvania Casualty Company for complete disability.

Disagreement arose on whether pulmonary fibrosis within the three years required by law to make compensation payments binding. Attorneys claimed Holt was still subjected to the beryllium dust, after the company stopped using the chemical in May of 1949, when he swept the dust on the floor and inhaled it.

Public Hearing Planned in Blue Cross Increase

The date was set yesterday. The Blue Cross organization in Pittsburgh is the Hospital Service Association of Western Pennsylvania. The hearing will be the second in the state on rate increase proposals by the various Blue Cross organizations.

The department has set Jan. 13 in Philadelphia to hear testimony on the request from the Associated Hospital Service, Inc., which has some two million subscribers in Philadelphia and eastern Pennsylvania.

The POWER of FAITH

by Howard Brodie

HENRY FRANCIS LYTE had always held close the hope that his verse might inspire
"One virtuous aim, one high resolve import—
Light in one drooping soul a hallowed fire,
Or bind one broken heart—"
But consumption had doomed him and he had been ordered by the doctors to leave his parish at Brixham, England, and seek the warmer climate of Italy. On the afternoon before his departure, he took a last walk on beloved paths by the sea. Returning, he went directly to his room and in less than an hour wrote the renowned hymn, "Abide with Me." The hallowed fire had been lit not only in his own soul but in untold others.

Dragon Matmen Overpower Oil City by Score of 38-6

Blue and White Grapplers Win Nine of the Eleven Matches

The Christmas vacation workouts proved to be very successful for the Dragon matmen last night when they outscored and outwrestled the Oilers at Oil City by the score of 38-6.

A packed house was on hand to see their team go down to defeat at the hands of a much improved Dragon squad. The Dragons won nine of the eleven matches with Jim Johnson, a Beatty freshman, scoring the only first period pin of the evening. Jim Olsen, a scrappy Dragon 165 pounder, lost by two seconds to a strong Oil City boy. Their match was so close that it took the referee and timers about ten minutes to figure out which boy had enough riding time to win the match. Jim's only comment was "Tough Luck".

The fired-up JVs also gave a very impressive performance by downing the Oiler JVs 24-8. Mike Long scored the only fall for the Dragon JVs, while Tom Sleeman, Steve Pearson, Ron Seader, Dick Campbell, Dick Kells, John Mead, Roger Ruud and Jake Shulman won decisions. Ray Kane and Bob Ingram lost respectively by a fall and a decision.

The Varsity results as follows:

95 lbs.—J. Johnson (W) pinned D. Welms (OC) 1st period.

Letters to Editor

Dear Editor:
Last week at North Warren Community House, McClintock's basketball team played North Warren five in the Gra-Y championship game for first half honors.

At least forty North Warrenites cheered their splendid team to victory, while only four came to see McClintock.

This is not unusual as two of three teams are very well supported and another with just as good or even better talent plays listless ball with nobody seemingly interested in their winning or losing.

Wonder if this has any significance? Anyway, hats off to the North Warren fold who seem to take interest in anything they support and manage to encourage any future talent in any field with a boost in the early years.

Scrappy Franklin Knights Meet Dragons Here Tonight

The scrappy Franklin Knights will provide the opposition tonight on Beatty court in the opening round of Section 2 warfare. On the basis of returning lettermen, the Dragons will enter the contest as underdogs as the Knights, piloted by Jim McCullough, boast of three starters from last year's team which posted a 4-6 record in league competition.

Blaine Kuhn, Pat Fonzo and Larry McNutt head the list of returnees. Helping round out the varsity are juniors Bill Lynch, Walt Thomas and Tom Smith. Sophs Ted Smith, Lou Fogle and Freddy Harris make up the remainder of the squad. Fogle, a sharpshooter, is the second leading scorer. He is second to Bob Lynch.

Franklin's most recent victory was over Erie Tech by a score of 68-65. It was in this game that a total of 94 foul shots were taken. The Knights feature a well-balanced scoring machine with speed and good ball handling as their forte.

The Dragons, disheartened over the second half collapse at Jamestown, are determined to get back on the victory trail. With the league toga as their goal the local cagers must win tonight. A loss will make the struggle much harder. Just who will get the call in tonight's important league opener Coach Massa has not decided. Mark Peterson, suffering from a cold, has missed the last two practice sessions but is expected to be ready for duty by game time. Nick McNeore, Nick Cieola, Bill Mervine, Bill Brumagim, Jack Karkosky, Joe Massa and Don McKelvy are considered possible starters.

A prehm, between the Jayvee teams, will start at 7:00 p. m. sharp with the main setto commencing at 8:15. A large crowd is expected to witness the opening of league action.

Speaking of Sports ---

Corry Journal Christmas vacation is over, but someone forgot to tell the Corry Beavers Tuesday night, the first Corry basketball game since December 20, the Orange and Black hoopers tasted their third defeat of the season against as many victories, bowing 67-59, to Youngsville in their most unimpressive showing of the campaign. Only the insertion of the second and third teams in the final period by Eagle Coach Dick Praetzel prevented the game from becoming a total washout as far as the charges of Coach Vic Cragg were concerned. The Beavers were never in the ball game as the veteran-studded Youngsville squad jumped to a commanding lead in the early moments of play and was never headed. Bad passes, thrown repeatedly in the first two periods, were chiefly responsible for the Corry downfall. The Eagles were quick to capitalize on the breaks and, using two squads with equal strength distributed among their eight returning lettermen, coasted to their third win of the year, balanced by a like number of victories. It was also the last "independent" contest before the Section II league action begins Friday with the Beavers traveling to Meadville to face the defending champion Bulldogs.

DEAR MARY, I just wanted to tell you that Montgomery Ward has the best values on sheets and cases during their January White Sale of any store in Warren. Believe me, I shopped around and compared the thread counts with my counting glass. Ward's Longwear sheets and cases are just what they say they are, 132-thread count. There's no glib "sales pitch" on their sheets and cases. They've got value and the best buy in Warren. Mary, I have been using their Longwear quality sheets and cases for years. The 81"x108" size is on sale at \$1.75, the 72"x108" is \$1.55, and the 42"x36" cases are only 36¢ each. Take a tip from me and go to Montgomery Ward and buy during their January White Sale. Stock up and you'll save money at Ward's just like I always do.

As ever, Jean.

\$4,269 State Grant for Warren Co. Development Association

At presentation ceremonies this afternoon in the YWCA Activities Building, the Warren County Development Association was given a grant declaration from the state Department of Commerce which provides a total of \$4,269 for use by the organization in its industrial development projects.

Eric Jones, Director, Bureau of Industrial Development, Department of Commerce visited Warren today to present the grant in the presence of Warren County Development Association members, Chamber of Commerce officials, borough and county leaders.

The sum of money now available to the Association comes from the Pennsylvania Industrial Development Assistance Act and a matching amount of local money is necessary to be eligible for the state funds. Last year the Association raised \$8,000 throughout the county so that it could apply for the state allocation.

The Association, which includes organization members in all parts of the county, has engaged the firm of Arthur D. Little, Cambridge, Mass., to make a complete economic base study of the area and several industry feasibility studies.

Warren Deem, Arthur D. Little representative, attended today's session to report on progress of the survey which is well underway in the fact gathering stage. On completion of the fact manual, the company will prepare feasibility

Wildlife Conservation Stamps Are Placed on Sale This Week

National Wildlife Federation has announced that its 1958 series of Wildlife Conservation Stamps are going into the mails sometime this week. Printed by a six-color lithograph process, the 1958 stamps depict thirty species of animals and plants, plus six striking scenes from the national parks, wildlife refuges, wilderness areas and other public lands of the United States.

The National Wildlife Federation is a league of state groups and organizations having as their objective the conservation and wise use of our natural resources. It is a non-profit, non-governmental organization.

The Federation explains, "The conservation of our soils, forests, waters and wildlife is a patriotic duty . . . on it depends our future as a nation. Help us restore, protect and conserve your outdoors. Never before have our resources counted for so much." Further information may be obtained from the Federation at 232 Carroll street, N. W., Washington 12, D. C.

Direction of the Federation's educational program during 1958, will be toward all Americans to aware them of their stake in the public lands. The scenic splendor of the national forests and parks, wildlife refuges, public grazing lands and others—about 800 million acres all told—forests and streams provide recreation for you and your neighbors.

The public land scenes were prepared to illustrate the theme of 1958 National Wildlife Week, to be observed March 16-22, according to Federation officers. The need for wise management of public land resources will be stressed during Wildlife Week campaign, a nationwide educational effort participated in by state wildlife federations, sportsmen's clubs and many other civic groups.

In addition to public land scenes the 1958 stamps reproduce natural-color paintings of the following:

Birds—Arctic tern, golden plover, snow goose, magnolia warbler, white-headed woodpecker, veery, red-shouldered hawk, oyster catcher, canvasback duck, phoebe, Louisiana heron and the pyrrhuloxia.

Mammals—Fur seal, fisher, sea otter, black squirrel and meadow vole.

Fishes—King salmon, pumpkinseed sunfish, porgy, hammerhead shark, chautauqua muskellunge and albacore.

Wildflowers—Wild rose, red turtlehead, pale touch-me-not and narrow blue flag.

Insects and crustacea—Monarch butterfly, honey bee, and the crawfish.

Matter of FACT

In breadmaking, when the yeast in the dough works upon the starch in the flour, carbon dioxide gas and alcohol is produced. The gas collects in bubbles in the dough, making it swell or "rise." When the bread is baked, the heat expands the gas, making the bread rise still more. The heat finally drives off the carbon dioxide as well as the alcohol, making a light, porous bread.
